

Installation

Installation

- After installing Node.js run this command:

```
npm install -g sass
```

- For Linux Ubuntu users:

```
sudo npm install -g sass
```

- After installing sass insert this in to package.json file:

```
// package.json

"scripts": {
  "sasscompl": "sass --watch SassSource/main.scss:Style/style.css"
},
```

- After you write this run this command from your terminal:

```
npm run sasscompl
```
