Mixins

Mixins

- Used to declared group of css that will reused throughout application.

- That make our SCSS Dry.

- Prefix (@) sign.

- Aliases **as**

```scss
// _mixins.scss

  @mixin flex-center ($gap: 2rem) {
      display: flex;
      justify-content: center;
      align-items: center;
      gap: $gap;
  }
```

```scss
// main.scss

  @use 'mixins.scss' as mix;

  .nav_container{
      @include mix.flex-center(10rem);
  }
```
