Variable

Variable

- Is a variable used to store or represent information or values.

- Prefix (**$**) sign.

- Aliases **as**

```scss
// _variable.scss

    $primary-colour: #4783ae ;
    $font-size-small: 20px;
```

```scss
// main.scss

    @use 'variable.scss' as var;

    .hello {
        font-size: var.$font-size-small;
        background-color: var.$primary-colour;
    }
```
